

Parents in Partnership - Friday 23rd March 2018 Year 3

Our learning this week:

Maths: What a week! The children have taken a maths test as part of our assessment process, which they have then looked at again to identify their own strengths and weaknesses. With Mrs Tonkin, they have been adding different volumes of liquids (in litres) and doing other calculations relating to this.

English: Again, the children have taken a reading test to assess progress, and they have spent time with Mrs Tonkin going through their answers to the 'trickier' questions to evaluate their own successes.

GEOGRAPHY WEEK

With Mrs Tonkin, the children have been looking at the physical and human geography of countries that come within the Arctic Circle. They have also been researching the different characteristics of a variety of countries in order to make their own country 'Top Trump' cards ready to play with a friend next week.

Spelling

Today the children have taken a spelling test based upon common words and the results will be shared with you at parent's evening next week!

Other News

Parent-teacher meetings are coming up next Wednesday 28th March, so you should by now have received a ParentMail asking you to make an appointment. We look forward to meeting with you to discuss your child's progress.

Remember that the term ends next Thursday at 2.15pm. The children have been working hard to earn 'beans' to put in our jar. To celebrate their success, we would like to hold a small end of term party next Wednesday. We would also like to share some popcorn – please let the office know as soon as possible if your child has any allergies to popcorn, thank you!
