

Parents in Partnership

Year 5 :

Date set: 15:2:19 Date due in: Maths 27.2.19
Date due in: Topic - 13:3:19

This week we have been learning:-

English: We have written our persuasive letters and Mrs. Harding will be sending them to NASA, Mars One and ESA. We have also learnt about colons and semicolons.

Spellings: This week's spelling pattern has been homophones and near homophones.

Maths: We have been learning about decimals this week. We have learnt how to order them and how to round them to the nearest whole number and to the nearest tenth.

Homework Tasks.

Please continue with the Topic Homework about The Moon.

This will be due in on 13th March.

Some children have brought in this homework already. Whilst I appreciate that they are keen to get it out of the way, I'm not sure that their work is a true reflection of 4 weeks work. I have asked them to look at it again and maybe add to it.

Don't forget - you can present your work in any way you like, as long as it shows your learning

Maths:

Find some real life examples of decimals.

Look around you while you are out of school and list as many different ways as you can find that decimals are used in real life.

My child's response to the tasks.
