

IXL Homework User Guide

Login - Remember the username is @plymouthcast

When you log in you will see this screen:

The screenshot shows the IXL Recommendations page. At the top, there is a navigation bar with 'Learning', 'Diagnostic', and 'Analytics' tabs. Below this is a search bar and a 'Welcome, [username]' message. The main heading is 'Recommendations' with a sub-heading: 'Here are all the maths skills recommended just for you, based on what you've been working on recently. Explore the different types of recommendations, and click on any skill you'd like to try!'. A dropdown menu shows '11 skills suggested by your teacher'. Below this, there are several math problems and a 'Real-Time Diagnostic' section. The problems include: 'Put these numbers in order from largest to smallest.' (8,625,515, 8,425,512, 8,925,562), 'What is £80.97 rounded to the nearest 10 pounds?', 'Write ninety-nine hundredths as a decimal number.', and 'What is 291,578 rounded to the nearest hundred?'. The 'Real-Time Diagnostic' section encourages users to try a diagnostic to see what they know and what they're ready to learn next.

Teachers will set the homework each week and the relevant link will be put on the PIP letter each Friday. This link might say, for example, **Maths IXL link – Level G A.6.**

To access this link, please go to the skills suggested by your teacher.

Click on the drop down arrow and a list of activities set by the teacher will appear.

Look through the list for the activity listed on the PIP letter.

Here are all the maths skills recommended just for you, based on your performance, types of recommendations, and click on any skill you'd like to try!
Put these numbers in order from **largest to smallest**.
8,625,515 8,425,512 8,925,562
Next up Because you excelled in A.5 on 19 September
A.6 Put numbers in order - up to 10,000,000 - Level G
Try the Real-Time Diagnostic to see what you know and what you're ready to learn next!
Real-Time Diagnostic
Put numbers in order - up to 10,000,000 (0) - Level G, A.6
Rewrite the sentence in active voice - Level J, D.12
Use the correct modal verb (50) - Level G, D.3
Identify adverbs - Level G, E.3
Identify adjectives - Level G, E.1
Identify active and passive voice - Level J, D.11
What does the modal verb show? (100) - Level G, D.2
Multiply by a two-digit number: complete the missing steps - Level G, C.12
Understanding integers (10) - Level G, A.10
Rounding (69) - Level G, A.8
Compare numbers up to millions (100) - Level G, A.5

You can then click on the activity link – e.g. **Level G A.6**

When the children complete these activities, IXL will automatically save their work after every question so the children do not need to save or submit anything. Teachers will receive an email once the children have completed the work they have been allocated.
