## **Welcome back!**

Welcome to the summer term! I hope you all had a lovely Easter break! This term, I will continue to collect home work in on a Monday but I won't hand new out **until the Tuesday**. Just to give us an easier turnaround time. I will continue to write the date at the top as usual. Thank you for continuing to support your children!

## **Topic:**

This term our topic is called Awesome Aviation! We will be looking at: how aeroplanes work, forces, transportation of food and where we get our food from, time zones and maps and globes to create flight paths.

**Maths:** At home I would like you to be practicing the 4 operations. Create 4 of your own sums (or ask an adult to make them for you) for each operation (add, subtract, divide, times) they could be:

**Add:** 3-digit numbers add 3 digit, adding ones, tens or hundreds.

**Subtract:** 3-digit numbers subtract 3 digit, subtracting ones, tens or hundreds,

**Times:** 2-digit X 1-digit, making 10 X bigger.

**Divide:** Bus stop method, 2-digit divided by 1-digit.

**Remember:** use the method that is easiest for you (column method is a good one!)

## **Times Tables:**

8 times table is our big focus this term, we need to know the facts off-by-heart and recall them quickly!

**Extreme Reading/**  
**Caught Writing**

## **English**

We are going to be looking at instructions. Have a think and make a list of different ways you might have used instructions. Maybe building a toy or baking something!
