

# Parents in Partnership

Year 5:

Date set: 26:4:19 Date due in: 1:5:19

Welcome to the Summer Term.

This term our topic is What a Wonderful World and we will be learning about different climates, environments and habitats around the world. We will also be learning about animals and life cycles.

This week we have been learning:-

English: This week we have started a new genre in English. We will be finding out about discussion/debate texts this half term. We have started by looking at the purpose and audience of a discussion text.

Maths: In maths this week we have reviewed our knowledge of 2d and 3d shapes and their properties. We have made sure that we are using the correct names and vocabulary for each shape.

## Homework Tasks.

Topic.

As our topic is What a Wonderful World, it will be linked to the book 'Kensuke's Kingdom' by Michael Morpurgo.

In light of this, the tables have been renamed. Find out as much as you can about your new table name and prepare a set of facts to discuss in class next Thursday.

My new table name is

.....

Maths:

Look around your home and find examples of 3D shapes in real life. For example - a ball is a sphere and a tin of baked beans is a cylinder.

Draw what you find and list the properties including how many faces, vertices and edges there are.

Challenge: How many different real life 3D shapes can you find?

My child's response to the tasks.

Extreme Reading, Caught Writing
