

Number Work

This week in Maths we have been continuing to solve division problems. Instead of dividing by 2, we have now been dividing by 5. Can you work out the division problem below? Show your working out.

Sarah has 10 stickers. She gives them to 5 of her friends. Each friend gets an equal number of stickers. Write the division sum below:

Each friend gets stickers?

Writing

In Year 2 we have been continuing to look at fantasy stories about dragons and next week, we will be writing our own dragon stories. I would like your child to start to write an **opening sentence** to their story. Thinking about where the story is set, the characters in the story and to use lots of adjectives! Write the sentence below.

My child's response to the tasks.
