

Home Schooling Daily Plan

Year Group: 2

Date: Friday 3rd April

*** Seeds (and soil) needed after Easter!***

After Easter we will be learning about plants for our science work. As part of this we were planning on planting some seeds in school and observing the changes as they grew. It would be great if your child is able to plant their own seeds after Easter to be able to make these observations at home. Sunflower seeds usually work well, but any quick-growing seed will do. If your child is not able to do this, do not worry - we will be planting seeds ourselves and taking photos to share with you.

RE WAGBAT: understanding how we can follow Jesus.

This week we have learned about the events of Good Friday shown in the Stations of the Cross. We have learned that many people were cruel and mocking towards Jesus, but we have also learned that some people showed him great love and kindness, even though it was risky to do so.

There are lots of stories in the news at the moment of people who are showing great love and kindness to others, often to people they have never even met. All of these people are following Jesus' example. For today's RE session, I would like you to think about these brave acts of love, and think about what you could do to follow Jesus.

Perhaps you could do some more jobs in the house to help out your family? Maybe you could ask your adult to help you make a phone call or send an email to someone who might be feeling a bit bored or lonely at home? It could be something as simple as trying really hard not to lose your temper with your family members even though they sometimes drive you crazy!

Try listening to this music while you think: <https://www.youtube.com/watch?v=5-mCWwRYl3E>. If your adult is there to help you, you might like to light a candle to help focus your thoughts.

Remember, the real challenge is not to think of a way in which you can show love, but to actually do it!

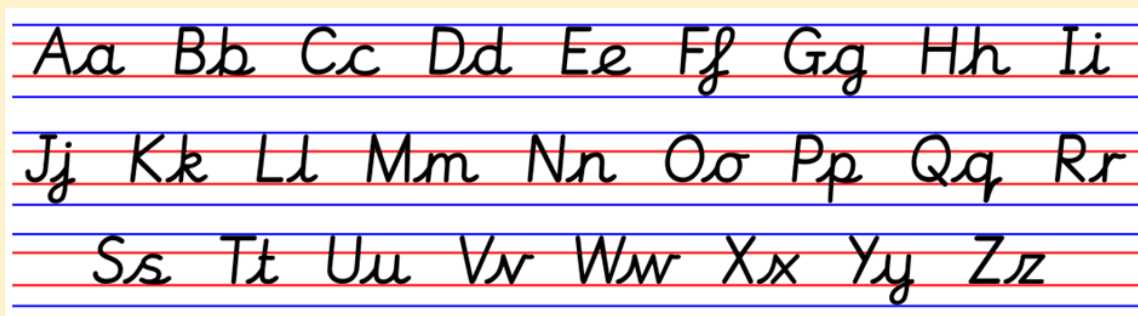

English WAGBAT: writing an informal letter.

You have worked really hard this week to write your letter. Today we are going to write them up neatly so they are ready to send. If you would prefer to send an email, that is absolutely fine – you can practice your typing skills instead of your handwriting skills! Just

remember that if you are sending an email, you do not need to put your address at the top like you do for a posted letter.

If you are writing your letter by hand, remember to use your best cursive handwriting. Look at the letters below to remind you.

| *Task | **Task | ***Task |
|--|--|--|
| Write out your finished letter. If you are posting your letter, remember to write your address in the top right hand corner and add the date underneath so that the person you are writing to knows when you wrote it. | Write out your finished letter. If you are posting your letter, remember to write your address in the top right hand corner and add the date underneath so that the person you are writing to knows when you wrote it. | Write out your finished letter. If you are posting your letter, remember to write your address in the top right hand corner and add the date underneath so that the person you are writing to knows when you wrote it. |

Maths WAGBAT: using mental methods for addition.

It's Friday, and it's the last day before the Easter break. It must be time for an egg hunt!

Ask your adult to write the numbers from your task onto separate pieces of paper. If you have a printer you can use this egg template

<https://www.firstpalette.com/pdf/eastereggs-plain-small9.pdf>. If not, you could draw your own eggs for them to use, or simply write the numbers on plain pieces of paper.

When they have written all the numbers, ask them to hide the numbered eggs around the house or garden. Make sure you don't peek! When they are hidden, it's your turn to go and find them. Each time you find two numbers, you have to add them together, recording the calculation and answer in your book. Remember to use the different addition methods we have looked at over the last two weeks.

Happy Hunting!

| *Task | | **Task | | ***Task | |
|-------|----|--------|----|---------|-----|
| 9 | 12 | 19 | 11 | 39 | 11 |
| 16 | 21 | 10 | 20 | 110 | 50 |
| 11 | 10 | 24 | 16 | 64 | 36 |
| 8 | 15 | 25 | 35 | 78 | 135 |

Topic (DT) WAGBAT: preparing food safely.

Last week, Emily-Rose shared her chocolate chip cookies recipe with me, and they were yummy!

This week (or weekend) I would like everyone to prepare something to eat for their family, and let me know what you have made. It doesn't have to be something sweet – you could help make a dinner, or even a special breakfast over the weekend.

What everyone **does** have to do is make sure they are safe in kitchen at all times. Watch this video and make sure that you follow all of this advice:

<https://www.youtube.com/watch?v=DoSq9T6OejA>.

Enjoy your cooking, and happy Easter!

| *Task | **Task | ***Task |
|--|---|--|
| Prepare some food for your family and let me know what you made. | Prepare some food for your family. Let me know what you made and why you chose to make it. Give your food a score out of 10 and explain why you chose this score. | Prepare some food for your family. Let me know what you made. When the food has been eaten, evaluate the meal. Did it turn out as you had expected? Did you have any problems while you were making it? If you were to make it again, would you change anything? Give your food a score out of 10. |
