

Parents in Partnership

YEAR 1

Homework: Autumn 2 Week 1

Maths

This week the children have been subtracting within 10 by crossing off the amount being subtracted and solving subtraction picture problems.

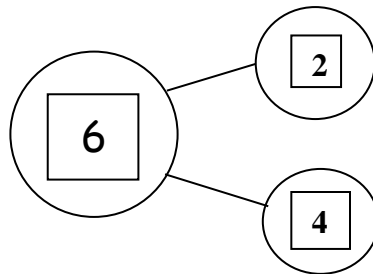

For example:

If 2 parrots fly away, how many parrots are left?

$$6 - 2 = 4$$

4 parrots are left.

Phonics

This week the children have been learning to read and spell the long 'a' sound using the spellings 'ay' and 'ai.' One of their tasks this week has been matching 'ay' and 'ai' words with pictures.

My child's response to the tasks.
