

Parents in Partnership

Year 5:

Date set: 8:2:19 Date due in: Maths 13.2.19

Date due in: Topic - 13:3:19

This week we have been learning:-

English: We have been learning about writing a persuasive letter. We have looked at examples of letters and found their features and we have looked at the qualities needed to be an astronaut

Spellings: This week's spelling pattern has been homophones and near homophones. The same pattern will continue next week.

Maths: We have been learning about decimals this week. We found that decimals and fractions are linked and that decimals are actually just fractions out of 10, 100 and 1000

The most exciting event this week was when Mr Tonkin the astronomer came in to see us. He told us so many exciting and interesting facts about the solar system and answered all our questions.

Homework Tasks.

Topic Homework - The Moon.

This will be due in on 13th March.

Using the attached chart, go out at the same time each evening and draw what you can see of the moon. Make sure that you look carefully to see which part of the moon you can see.

In addition to this, find out as much as you can about the moon and how it changes over the course of a month. What is each phase of the moon called? You could also find out about how the moon affects the tides, how the moon changes throughout the year and any facts and myths about the moon.

Present your work in an interesting and informative way.

Maths:

Write the fractions (or mixed numbers) for these decimals. Don't forget to simplify them if necessary.

1. 0.3
2. 0.07
3. 1.613
4. 41.084
5. 385.004

Extreme Reading, Caught Writing

My child's response to the tasks.
