

# Year 4 P.I.P. Homework week | 5.9.18

Welcome to Year 4 as you know Mr Brown will teach the children on Monday, Tuesday and Wednesday and Mrs Chase on Thursday and Friday. They both teach the children Maths and English every day, other subjects are shared between them to teach during the week. In maths lessons for the first part of this term Mr. Brown is teaching the children about place value and Mrs Chase is teaching addition and subtraction.

This week the maths homework is to look at place value and identify what each number represents.

## Our Topic this half term South America

The medium term plan for this topic is on the school website.

In art, this week, we are looking at some of the beautifully coloured animals, reptiles and birds that live in the rainforest. Your homework for this week is to choose just one of the rainforest creatures and draw, colour or paint a picture of it.

Then write at least five-facts about it. Please do this all on one side of A4 paper so it can be displayed in the classroom for others to see.

Spellings this week use the 'au' sound

Tested on Monday 10<sup>th</sup> September

caught

Autumn  
clause

naughty

cause

taught

astronaut

daughter

applaud  
author

This week and next week all the children will be tested on their knowledge of all the times-tables up to 12 X 12. So any extra practise will be very useful!
