

Maths

This week we have been working on subtracting three digit numbers. Choose a star and have a go at the calculations. Remember to use the column method and start by subtracting the ones.

386-126

598-125

658-225

982-226

755-129

852-126

627-181

593-258

768-291

662-218

856-298

921-358

934-796

765-296

415-246

Challenge: Write a worded problem for each calculation you have done!

English

This week we have been discussing the use of time prepositions. This is where you put a time phrase at the start of the sentence.

For each sentence below, rewrite them into your book with a time preposition at the start- check to make sure it makes sense too!

- 1) It was freezing cold walking along the beach.
- 2) The dog ran as fast as he could to catch the ball.
- 3) Mark ran the race and became the champion.
- 4) Bob and Sam marched into town to collect their new uniform.
- 5) Lola won the gold medal!

CHALLENGE: Add a conjunction and another clause to each sentence.

RE

We have continued our topic this week, Prayers, Saints and Feasts. The children have been writing a Penitential Rite related to forgiveness. They have come up with some brilliant ideas and have been able to explain their thoughts really well.

Topic and Science

We had a brilliant time in science last week learning some of the names of different bones in our body! This week we will be thinking about our muscles and how they help us!

Spellings

This week we will be looking at the ending sound 'g' spelt 'gue'. Here are the 5 rule words:

League

Vague

Plague

Intrigue
